<p>Westerns were barely maintained. Nuwara Eliyas together with the Uda Pussellawas were irregular. Uvas together with the Low Grownns were lower to last.</p>																																			

## COMMENTS

Auction offerings declined this week and totalled 6.3 M/Kgs. There was good demand. The better teas continued to command a premium widening the parity between the poorer counterparts.

*Ex-Estate offerings declined to 0.85 M/Kgs from 0.95 M/Kg the previous week. Overall quality of teas from the Western planting district showed no significant change, whilst seasonal offerings from the Eastern sector showed a decline in quality and were limited in availability.*

Improved demand for the Best Western BOP/BOPF's, which gained Rs. 20-40 per kg and substantially more - a combination of qualitative variances perhaps supported by additional special inquiry. In the Below Best category, a selection of improved BOP/BOPF's gained Rs. 20-40 per kg, whilst the others were often irregular. At the lower end of the market prices followed a similar trend and appreciated up to Rs. 20 per kg particularly for the clean leaf teas, whilst the poorer varieties were barely steady. A neat/clean dry leaf appearance combined with coloury strong liquor seems to be the sort after criteria as consecutive invoices of the same estate with an inferior dry leaf appearance or thinner liquor were often discounted considerably. Nuwara Eliya BOP's continued to sell fairly well, whilst the corresponding BOPF's sold at substantially lower levels. Uda Pussellawas<sup>1</sup> were barely maintained and continued to sell at the lower end of the market. Uva seasonal teas - BOP/PEK invoices sold at firm to marginally lower levels, whilst the corresponding BOPF's, once again, were neglected with many invoices remaining unsold.

High and Mid Grown CTC teas continued to witness a firm to dearer trend with select neat leaf invoices appreciating Rs. 20 per kg for the second consecutive week. Indeed encouraging. The corresponding Low Grown varieties, in the backdrop of its limited availability, recorded a substantial increase in price towards the close of the sale and continues to secure a significant premium over the High and Mid Grown counterparts.

Low Grows comprised of 2.6 M/Kgs in the Leafy/Semi Leafy and Tippy catalogues. There was fair demand. Well-made teas together with improved Below Best met with good demand and were fully firm to selectively dearer, whilst the balance were easier following quality.

*In the Leafy catalogues, select Best BOP1/OP1's were barely steady, whilst a range of improved Below Best varieties met with fair demand. Better OP/OPA's in general were fully firm, whilst the poorer sorts in particular declined. Select Best together with a range of improved Below Best PEK/PEK1's maintained, whilst the prices declined substantially particularly for the mixed varieties.*

*In the Tippy catalogues, well-made FBOP/FF1's together with the improved Below Best sold around last levels, whilst the balance were easier following quality.*

*In the Premium catalogues, very Tippy teas continued to attract good demand. Below Best and cleaner teas at the bottom appreciated, whilst the balance were firm on last.*

*Total Auction offerings shows a further decline next week and totals 6.2 M/Kgs, of which Ex-Estate offerings comprise of 0.78 M/Kgs.*
