Re - Prints	1,474	893,587

Buyers Prompt : 28/06/2021
Sellers Prompt : 29/06/2021

QUALITY

High and Mid Grown were irregular and barely maintained, whilst the Low Grown were lower to last.

COMMENTS

Auction offerings totalled 7.2 M/Kgs. Once again, the better teas continued to be reasonably well sought after, whilst the poorer/plainer teas continued to witness a sluggish market.

Ex-Estate volumes were maintained around last with the quality of offerings remaining fairly similar - only a limited availability of good teas, whilst a majority of the volume comprised of average to Plainer quality teas. Consequently, a selection of Best and Below Best BOP/BOPF's continued to sell well, although prices tend to fluctuate quite significantly amongst consecutive invoices reflecting the intrinsic quality variances. At the lower end of the market, prices remained more or less firm with only the very poor leaf teas being discounted. Nuwara Eliya BOP/BOPF's were very limited in availability and consequently, a few select invoices gained quite sharply following special inquiry, whilst the others continued to sell around last week's levels. Price structure for the Uda Pussellawas' showed no significant change, whilst teas from the Uva planting districts sold at firm to marginally dearer rates particularly for teas with a better leaf structure.

High and Mid Grown CTC PF1's continued to be a weak feature with majority of the teas on offer losing a further Rs. 10 per kg. Corresponding Low Grown types sold well in comparison although marginally lower to last week's closing levels. The BP1 grade from all elevations continued to be neglected with a majority of the teas remaining unsold.

Low Grown's comprised 3.1 M/Kgs in the Leafy/Semi Leafy and Tippy catalogues. There was good demand for a selection of well-made teas, whilst the balance met with lower rates following quality.

A range of Select Best/Improved Below Best BOP1/OP1's maintained, whilst all others declined following quality. Better OP/OPA's in general maintained at the commencement of the sale and declined towards the close, whilst the poorer sorts maintained. A range of better PEK/PEK1's maintained, whilst all others and mixed varieties in particular declined substantially and were mostly unsold due to a lack of suitable bids.

Well-made FBOP/FF1s together with a few cleaner Below Best maintained, whilst the balance were easier following quality.

In the Premium catalogue, very Tippy teas continued to attract good demand. Best and cleaner Below Best were firm to dearer, whilst the balance were irregular following quality.

SRI LANKA TEA PRODUCTION - MAY 2021

Production shows signs of recovery with January-May 2021 gaining 31.61 M/kgs over the corresponding period of 2020

Sri Lanka tea production for the month of May 2021 totalled 30.37 M/kgs, showing an increase of 1.77 M/kgs vis-à-vis 28.60 M/kgs of May 2020. High and Low elevations have shown gains whilst, Medium Grown's recorded a marginal decline over the corresponding month of 2020.

January-May 2021 cumulative production totalled 134.72 M/kgs, recording a gain of 31.61 M/kgs vis-à-vis 103.11 M/kgs of January-May 2020. On a cumulative basis, all elevations have shown substantial gains, with the Low Grown's in particular gaining 34% over the corresponding period of 2020.

Cumulative production of CTC teas (January-May 2021) totalled 11.95 M/kgs, recording a 2.52 M/kgs increase vis-à-vis 9.43 M/kgs of January-May 2020. Here Again, all elevations have shown a significant gain YOY when compared to the corresponding period of 2020 (See more details on Page No. 9).

FORBES & WALKER TEA BROKERS (PVT) LTD SALE OF - 21ST/ 22ND JUNE 2021							

BANGLADESH AUCTION

SALE OF - 21ST JUNE 2021 (SALE NO. 07)

CTC LEAF: 28,442 packages of Current Season and 90 packages of Old Season teas on offer met with a strong demand mostly at higher rates.

BROKENS: Best Brokens were a strong feature of the sale and advanced by Tk.5/- and more following competition whilst all others also sold well and were about firm. Plain and BLF teas saw fair interest but at easier rates with a few withdrawals.

FANNINGS: Best Fannings were a strong feature and were often dearer following competition, others also saw a good demand and were about firm. Plain types witnessed fair demand but were easier. BLFs were also easier with some withdrawals.

CTC DUST: 9,735 packages of Current Season and 95 packages of Old Season teas on offer met with a good demand. All well made good liquoring Dusts sold well at around last levels. Other good liquoring and Medium Dusts were easier by Tk.3/- to Tk. 5/- closely following quality. Plain and BLFs saw a fair demand but at irregularly easier rates with more withdrawals compared to last sale. Blenders lent strong support with fair interest from the Loose tea buyers.

COMMENTS: There were increased activities from all sections of the market particularly for the best liquoring varieties which advanced in values. It was evident that teas with brighter cups were readily absorbed at a premium over plainer varieties. Dusts sold well.

Our catalogue (Sale 07): Avg: Tk 211.99, Sold 89.1% & (Sale 06) Avg: Tk 206.93, sold 93.5%.
